Endless Possibilities!

Not Your Ordinary Women's Bible Study

"This is Henry Blackaby in pink; and a much more simplistic language."

- Ellen Stevens

To be compared to one of the most well known and respected Bible study authors is high praise and not one taken lightly.

Ladies are more likely to attend a Bible study (60% to 40% of men), so the demand for women's Bible study material is much greater. As a result, all too often the market is flooded with very similar watered down studies.
